22. Quick answer table

How the website works (the big idea)

The website has **two sides**:

Side	Who uses it	What it does
Public website	Students, parents, visitors — anyone	Shows school news, teachers, programs, budget, and more. People can only **look**.
Admin page	Only school staff who were given access	The place where you **add, change, or remove** what the public sees.

Think of it like a **bulletin board**. The public website is the board everyone reads. The Admin page is the key to the glass case — only trusted people can open it and change the posters.

> **The most important thing to know**
> When you save something on the Admin page, it shows on the public website **right away**. You do not need to call anyone or wait for a programmer.

PART 1

The public website

This part is for everyone who visits the school website.

Moving around the website

At the **top** of every page is the **menu bar**. It stays there even when you scroll down.

- **Home** — the front page.
- **About JOLNHS** — point at it (or tap it) to see more choices: *Overview* and *Faculty & Staff*.
- **Academics** — shows the school programs. Point at it to pick one program.
- **Campus Life** — student activities. Point at it to pick a group.
- **Budget Transparency** — where the school money goes.
- **News** — school announcements.
- Enroll — the dark blue button. Click it to learn how to enroll.

Below the top part of most pages you will see a small line like `Home › Campus Life › Athletes`. This shows **where you are**. Click any word in it to go back to that page.

At the **bottom** of every page (the footer) you will find the school address, phone, email, office hours, a map, and quick links like *Downloads* and *Contact*.

> **Lost?**
> Click the school logo at the top-left corner. It always brings you back to the Home page.

What each page is for

Page	What you can do there
Home	See the welcome video, latest news, school programs, and why people choose JOLNHS.
About › Overview	Read the school history, mission, and vision.
About › Faculty & Staff	See the teachers and staff with their photos and jobs. Use the buttons on top to show only one group (for example, only SHS Faculty).
Academics	See all programs. Click one to read what students learn, who can join, and what is needed to apply.
Campus Life	See student life: *Organizations, Athletes, Journalists, PTA,* and *Gallery*.
Budget Transparency	See how much money the school got and how it is used, by category.
News	Read announcements. Use the tabs to show only one kind (for example, only Events). Click a news item to read all of it.
Enroll	Learn the steps to enroll, what papers to bring, and the office hours.
Downloads	Get school forms and files. Click a file to open or save it.
Contact	Send a message to the school using the form. Fill in your name, email, and message, then press Send message.
Privacy / Cookie Policy	Read how the website handles your information.

Campus Life pages, a closer look

- **Organizations, Athletes, Journalists** — each group (like SSLG, Basketball, or the school paper) is shown as a **card**. **Click the card** to open it and see its officers, coaches, players, and photos. Click again to close it.
- **PTA** — shows the PTA officers in a simple list.
- **Gallery** — a wall of school photos in different sizes, like Pinterest.

> **About student privacy**
> For sports teams, players are shown with **name and position only** — no photos. This protects our students because they are minors.

Changing the colors

At the bottom-right corner of the screen there is a small round button with a **paint palette** picture. Click it to choose a color style:

- **Light** — white background (the normal look).
- **Dark** — dark background, easier on the eyes at night.
- **Sky Blue** — a light blue look.

The website remembers your choice the next time you visit on the same device.

The other round button with an **arrow pointing up** takes you back to the top of the page.

The cookie message

The first time you visit, a small box asks about **cookies**. This is only about the Google Map at the bottom of the page.

- Press Accept to show the map.
- Press **Decline** if you do not want it. You can still get directions using the link instead.

Using it on a phone

- On a phone, the menu is hidden. Tap the **three lines (☰)** at the top-right to open it.
- Tap a menu item with an arrow to see more choices under it.
- The Enroll button, *Downloads*, and *Contact Us* are at the bottom of the open menu.
- Tap the **X** or tap outside the menu to close it.

PART 2

The Admin page

This part is only for school staff who were given admin access. The Admin page is where you change what the public sees.

Logging in

1. Go to the website address and add `/admin` at the end. You can also scroll to the very bottom of any page and click the small **Admin Login** link.
2. Type your **Email** and **Password**.
3. Press Sign in.

> **If you type the wrong password 5 times**
> The login will stop you for **1 minute**. This keeps strangers from guessing passwords. Just wait 1 minute and try again carefully.

> **"You do not have access" message?**
> Having an account is not enough — another admin must also add you on the **Admin Users** page (see later). Ask the main admin.

Logging out — and when the website logs you out by itself

- To log out, press the **Sign out** button in the admin menu.
- If you do **nothing for 30 minutes**, you are logged out by itself.
- If you **close the browser tab**, you are logged out too.

This is for safety. If you forget to log out on a shared school computer, no one else can use your access.

> **Tip**
> Save your work often. If you are logged out by the 30-minute rule, unsaved typing is lost.

The admin menu

On the left side (or behind the ☰ button on a phone) is the admin menu. It is split into groups:

Group	Pages inside
Overview	Dashboard
Content	Announcements, Staff & Faculty, Campus Life, Gallery, Documents
Transparency	Budget
Inbox	Messages
System	Admin Users, Activity Log, Settings

The Dashboard

This is the first page you see after logging in. It shows a **summary**: how many staff, Campus Life groups, and budget items there are, plus quick buttons like *Add staff* and *Update budget*. Use it as your starting point.

Announcements (News)

Shows on: the *News* page and the "Latest updates" part of the Home page.

To add a new announcement:

1. Open **Announcements** and press the button to add a new one.
2. Fill in the **Title**.
3. Pick a **Category** (for example, Event or Advisory).
4. Add a **Cover image** if you want (not required).
5. Write a short **Excerpt** — 1 or 2 sentences shown on the news card.
6. Write the full message in **Body**.
7. Tick **Published — visible on the public site**.
8. Press Save.

> **Your news does not show on the website?**
> Most likely it is still a **Draft**. Only items with the **Published** box ticked can be seen by the public. Edit it, tick the box, and save again.

- **Pin** — keeps an important announcement at the top of the list.
- **Filipino version** — you may also type a Filipino title and message. It shows under the English one.
- **Archive** — hides an old announcement without deleting it forever. You can bring it back from the *Archived* tab.

Staff & Faculty

Shows on: *About › Faculty & Staff*.

1. Press Add Staff.
2. Type the person's **name** and **position**.
3. Pick their group: **Administrators**, **JHS Faculty**, **SHS Faculty**, or **Staff**.
4. Pick their **Department** if they belong to one — for example, Science Department.
5. Add a **photo** (JPG, PNG, or WebP).
6. Press Save.

- **Departments first.** On each tab there is a **Departments** box — that is where you add the departments (one name at a time). A person can then be assigned to a department inside their

form.

- **Department Head.** Tick **Department Head** in a person's form to make them the head. Each department can only have one head — the previous head is replaced automatically.
- **What visitors see.** On the public page, departments show as cards that open when clicked, with the head shown first. People with no department sit in an **Other** card.
- To **change** someone, click their row, edit, and save.
- If a teacher leaves, use **Archive** instead of deleting. You can see archived people again using the filter at the top.
- Use the search box to find someone fast.
- **Export to CSV** downloads the staff list as a file you can open in Excel.

> **Departments missing in the form?**
> Add the department in the Departments box first — a person's Department list only shows the ones you already created.

> **For nice-looking photos**
> Use photos where the person faces the camera, from the shoulders up, with a plain background.

Campus Life

Shows on: the Campus Life pages. At the top there are **tabs**: *Athletes, PTA, Journalists, Organizations*. Pick the tab you want to change.

Each tab has these parts:

1. Section information — the title, short tagline, description, and the numbers shown in the "By the Numbers" box (for example, "Student Athletes — 180+").

2. Highlights — the cards under **"What We Do"** on the public page. Each card has:

- a **title** and a **description**, and
- an **image** (not required). Click the small picture box on the left of the card to add one. Click **Replace** to change it, or the small ✕ to remove it.

Press **Add highlight** for a new card. Press the trash button to remove one.

> **Very important — press Save Changes**
> The Save Changes button is in the **Section information** box. It saves the section text, the numbers, **and** the highlight cards all at once. If you leave without pressing it, your changes are lost (the page will warn you first).

3. Groups (Organizations, Athletes, Journalists only)

Tab	You add a…	Inside each one you add…
Organizations	Organization (like SSLG)	Advisers and Officers, with photos
Athletes	Sport (like Basketball)	Coaches with photos, and Players (**name and position only**, no photos)
Journalists	Publication (like the school paper)	Adviser and Staff, with photos

1. Press the button to add a new group. Type its **name**, a short **description**, and add a **cover picture**.
2. Save it. Then click the group to **open** it.
3. Inside, add its people. For each person type the **name** and **position** (for example, "President").
4. Add photos to the group's **photo strip** (up to 12) — team photos, events, and so on.

> **The order of officers is automatic**
> The website puts people in order by their position: Adviser → President → Vice President → Secretary → Treasurer → Auditor → P.I.O. → Grade Representatives (Grade 7 to 12) → Committees. You do not need to arrange them by hand. Just type the position clearly.

4. People / Officers (PTA tab only) — a simple list of PTA officers with name, position, and photo.

Gallery

Shows on: the photo part of each Campus Life page. Photos in the **Campus Gallery** tab show on the Gallery page as a Pinterest-style wall.

1. Open **Gallery**.
2. Click the **tab** of the section the photos belong to.
3. Press Upload photos. You can pick **many photos at once**.
4. Under each photo, type a **caption** if you want, then press Save.

- Photos must be **JPG, PNG, or WebP** and **5 MB or smaller** each.
- Tall and wide photos are both fine — the Gallery wall shows each one in its own shape.
- To remove a photo, press the trash button and confirm.

Documents (Downloads)

Shows on: the *Downloads* page.

1. Open **Documents**.
2. Type the **Title** (for example, "Enrollment Form 2025").
3. Pick a **Category**.
4. Choose the **File** — PDF, Word, or image, up to **20 MB**.
5. Add a short **Description** if you want.
6. Press Publish.

To take down an old file, use **Archive**.

Budget

Shows on: the *Budget Transparency* page. The budget is organized by **fiscal year** (school money year).

1. Press New Fiscal Year to start a new year (for example, "FY 2025").
2. In **Fiscal year details**, type the **total budget** and the short texts shown on top of the public page.
3. In **Budget categories**, add each category (for example, "Learning Materials") with its amount.
4. Press **Set as current year** on the year you want the public to see. **The public Budget page shows only the current year.**
5. Set the year's **status** to keep your records in order:
    - **Draft** — still being worked on.
    - **Published / Active** — finished and in use.
    - **Archived** — an old year. It is locked and cannot be changed.

Do not set a year as "current" until it is ready

As soon as a year is the current year, the public can see it — even if its status still says Draft. Finish typing the numbers first, then press **Set as current year**.

Why some years cannot be edited

Old (archived) years are locked on purpose so past records stay honest and are not changed by mistake.

Messages

When someone uses the **Contact** form on the public website, the message comes here.

- New messages are marked **unread**. The top of the Messages page shows how many are unread (for example, "3 unread").
- Click a message to read it.
- Press **Reply via email** to answer — this opens your email app with the sender's address already filled in.
- Press **Archive** when you are done, to keep the inbox clean.

Admin Users

This is where you decide **who can use the Admin page**.

1. The new person must first have a **login account** (email and password).
2. In **Grant admin access**, type their email and confirm.

- To remove someone's access, press remove beside their name.
- You **cannot remove yourself**. This stops the school from being locked out by mistake.

> **Give access carefully**
> Every admin can change the public website. Only add people the school trusts. Remove access right away when someone leaves their job.

Activity Log

A list of **who changed what, and when**. Every save on the Admin page is written here — for example, "Maria updated staff Juan Cruz, 10:15 AM." Use the filters to look for a certain person or type of change. It is useful when you need to know who made a change.

Settings

Changes for the **whole website**:

- **Site Identity** — the school name shown on the site.
- **Contact Information** — address, phone, email (shows in the footer and Contact page).
- **School Information** — other school details.
- **Page Content** — the big welcome words on the Home page, the welcome message, the About page history, and the mission statement.

Press Save after changing anything. If you leave a box empty, the website shows its original text instead.

Good habits and safety

- **Never share your password.** Each admin should have their own account.
- **Log out** when you finish, especially on a shared computer.
- **Check your work** on the public website after saving. Open the page and press **Ctrl + F5** to refresh.
- **Use Archive, not delete,** when possible. Archived things can be brought back.
- **Protect student privacy.** Do not post students' home addresses, phone numbers, or birthdays. Use only photos the school is allowed to share.
- **Use clear, small photos.** Big photos make the website slow. Keep them under 5 MB.
- **Check spelling of names and positions** — this is what parents and students will read.

When something goes wrong

Problem	What to do
I saved something but it does not show on the website.	1) For news, make sure it is **Published** (not Draft). For budget, make sure the year is set as the **current year**. 2) For Campus Life, make sure you pressed **Save Changes**. 3) Refresh the public page with **Ctrl + F5**.
I cannot log in.	Check your email and password spelling. If you tried 5 times, wait 1 minute. If it says you have no access, ask the main admin to add you in Admin Users.
I was logged out suddenly.	You were inactive for 30 minutes, or the tab was closed. Log in again.
My photo will not upload.	Use JPG, PNG, or WebP and make it smaller than 5 MB. You can make a photo smaller by taking a screenshot of it or using a photo app.
A page shows a red error with "Try again".	Press **Try again**. Check your internet. If it keeps happening, tell the person who manages the website.
I made a mistake.	Edit it and save again. If you archived something by mistake, bring it back from the Archived view. The Activity Log shows what was changed.
Someone's name appears twice.	Open that group, find the extra copy, and archive or remove it.

Quick answer table — "I want to..."

I want to...	Go to
Post school news or an event	Admin › **Announcements**
Add or update a teacher	Admin › **Staff & Faculty**
Add a club, sport, or school paper	Admin › **Campus Life** › pick the tab
Add officers to a club	Admin › **Campus Life** › Organizations › open the club
Add coaches or players to a sport	Admin › **Campus Life** › Athletes › open the sport
Change the "What We Do" cards	Admin › **Campus Life** › Highlights → press **Save Changes**
Change PTA officers	Admin › **Campus Life** › PTA › People / Officers
Upload event photos	Admin › **Gallery** › pick the tab
Share a form for download	Admin › **Documents**
Update the school budget	Admin › **Budget** (the public sees the **current** year)
Read messages from parents/visitors	Admin › **Messages**
Give a co-worker admin access	Admin › **Admin Users**
See who changed something	Admin › **Activity Log**
Change the phone, email, or welcome words	Admin › **Settings**

Remember the three golden rules

1. **Save** after every change.
2. Make sure news is **Published**.
3. **Log out** when you are done.
